#### Types of Reactions Worksheet THEN Balancing!

First, begin by telling which type of reaction is taking place. Then go back and balance the following equations: To practice balancing, you may use the Phet Lab online. When finished, check your answers.

1) _	NaBr + H₃PO₄ → Na₃PO₄ + HBr	Type of reaction:
2) _	Ca(OH) <sub>2</sub> + Al <sub>2</sub> (SO <sub>4</sub> ) <sub>3</sub> → CaSO <sub>4</sub> + Al(OH)	Type of reaction:
3)	Mg + Fe <sub>2</sub> O <sub>3</sub> → Fe + MgO	Type of reaction:
4) _	C;H4 +O2 →CO2 +H2O	Type of reaction:
5)	PbSO <sub>4</sub> → PbSO <sub>3</sub> + O <sub>2</sub>	Type of reaction:
6) _	NH₂ + I₂ → N₂Is + H₂	Type of reaction:
7) _	H₂O+SO₃ →H₂SO₄	Type of reaction:
8) _	H <sub>2</sub> SO <sub>4</sub> + NH <sub>4</sub> OH → H <sub>2</sub> O + (NH <sub>4</sub> ) <sub>2</sub> SO <sub>4</sub>	Type of reaction:

## STEPS to a Balanced Equation

- Make a T chart for Reactants and **Products**
- List your elements
- Count the atoms on BOTH Sides, write
- White the coefficients to make # of Atoms the same for one element, distribute. and recount. (Coefficient X Subscripts = #
- of atoms) Update chart and Rebalance if Necessary (Steps 3.5)

sciencespot.net tracy has a good lesson plan and the transfer of chemical reactions published on its website: I modified the PPT slides that I had published so that your eighth grade students would use it with my sixth grade students as a guided lesson. I used this lesson after learning to balance chemical equations using the practical lesson I created and described below (also found on my chemistry page): balancing the activity of chemical equations and balance chemical equations will learn how to read formulas; we work together the problems and I called the students to first identify and had a good understanding of how to identify and balance the equations. Click here to get the ppt: Google Slides (public) To save the slides, you can select "Filito" and then "Do a copy" or "Download"There are to find my heart that I missed on the road. This post comes from the TODAY Parenting Team community, where all members are welcome to post and discuss parenting solutions. Learn more and join us! Because we're all in this together. This ranking of the best middle schools in the United States focuses on grades on grades. Because regions (states, districts, etc.) set their own standards, in some places grades 7 and 8 may be combined with the high school, while in others they may be found together with 6th grades in a separate school by themselves or together with 6th grade (these are usually called "middle schools" or less frequently now "junior high schools"). Whatever the combination, the schools in this ranking have both 7th and 8th graders were evaluated individually, rather than for the school as a whole. The schools This ranking has found a way to provide students with sinto and eighth grade a rich school experience that prepares them excellently well for high school, university and life. Recent research indicates that it is beneficial to put the students of only and eighth grade together with the elementary degrees, creating a school only for K to 8. There are significant studies that show that high school/media students do better when they receive education in An environment K to 8. However, in large urban or suburban areas this option can create space, personal and security problems. For this reason, it is not always feasible to make a school for nine degrees. The best middle schools in the US 1. Community Day Charter School Community Day Charter was founded in 1995 and was one of the first rental schools in Massachusetts. He began with degrees K-3 and a degree each year after all grades k-8 had. Teachers work together in teams to identify weakness and formulate action plans for students who do not have ã A ©ito, as well as they should do so. All students have the opportunity to have an hour with school support and the belief that all students who wish to develop their skills or participate in extracurricular activities. The NAEP manages the same test at the national level to apply a set to each student regardless of living state. In the case of Common standardized test evaluations, each state creates and manages its own tests, making comparisons between states difficult. That's why we emphasise NAEP.
